**MD Kamrul Hassan**

To Whom It May Concern,

I'm writing a letter on behalf of Kamrul who served as the Customer Experience Manager for our local partner for the product, Kormo Jobs from September 2017 until June 2022.

Kamrul is detail oriented, goal oriented and ambitious. He managed the team without any issue and was always dedicated to his work. He was eager to learn new skills and applied new learnings to his work. Over the years he has built up extensive data analytics skills in Google Data Studio, HubSpot and Google Sheets and was responsible for most of the weekly reporting to Google.

Over the course of my time working with Kamrul, I've observed that he is very process oriented while also being adaptable to changes. Given he was working in a fast-paced start-up environment where processes and tools frequently changed as our product evolved, this combination was critical in allowing him to excel in the role.

I have no doubt Kamrul will make a strong addition to any team and wish him the best of luck in his next endeavor.

Best Regards,

NAhmed
