MOHAMMAD KAMRUL HASSAN

BUSINESS INTELLIGENCE | SALES ANALYTICS | MIS REPORTING

Dhaka, Bangladesh | +88 01935555173

kamrulhassan9355@gmail.com | linkedin.com/in/kamrulhassananalyst

PROFESSIONAL SUMMARY

Business-focused **MIS, BI, Sales Performance, and Business Intelligence professional** with **8+ years of experience** across FMCG, Digital Platforms, Food & Beverage, and business operations. Skilled in sales analytics, MIS reporting, dashboard automation, KPI tracking, incentive calculation, pricing support, demand planning, CRM reporting, and executive-level management reporting.

Experienced in transforming business data into clear reports, practical insights, and decision-ready recommendations for Sales, Finance, Operations, Supply Chain, Planning, Audit, and Management teams. Hands-on with Power BI, Looker Studio, Advanced Excel, Power Query, Google Workspace automation, Apps Script, CRM/ERP systems, and basic SQL, with a strong focus on reporting accuracy, process improvement, and business performance visibility.

PROFESSIONAL EXPERIENCE

MIS & Sales Operations Analyst

T.K. Group of Industries | FMCG

Oct 2025 – Present

MIS, Sales Reporting & Business Monitoring

- Prepare and monitor daily, weekly, monthly, and yearly sales MIS covering region, area, territory, SKU, target achievement, primary/secondary sales, orders, and expenses for management review.

Google Workspace Automation & Live Reporting

- Built Google Forms, Google Sheets, and **Apps Script-based live-reporting** workflows to track primary/secondary sales, reduce manual effort, and improve real-time business visibility.

Business Analysis & Problem Solving

- Analyze region-, area-, SKU-, customer-, product-, and order-wise sales performance to identify target gaps, slow-moving items, reporting issues, and practical business improvement opportunities.

Senior Business Development Analyst

ACI Formulations PLC | FMCG

Nov 2022 – Apr 2025

Sales, Market & Commercial Analysis

- Analyzed nationwide primary/secondary sales, region-wise performance, channel movement, product trends, and target achievement to identify growth gaps, business risks, and sales opportunities.

MIS, Dashboard & Management Reporting

- Developed **Power BI, Looker Studio**, Excel, and Google Workspace-based dashboards and MIS reports, reducing manual reporting effort by **35%–55%** and improving management visibility.

Incentive, Foreign Trip & Performance Calculation

- Prepared monthly incentive calculations, annual foreign-trip eligibility analysis, target achievement reports, sales ranking, and performance summaries for sales teams and management review.

Business Planning & Problem Solving

- Supported demand planning, pricing analysis, trade offer evaluation, GP/Opex/CapEx reporting, pre-launch testing, and sales gap analysis through data-backed recommendations.

Cross-functional Decision Support

- Worked closely with Sales, Finance, Supply Chain, MIS, Planning, and Audit teams to ensure accurate data, aligned reporting, and decision-ready business insights.

Operations & Business Data Analyst

Kormo Jobs by Google | Job Matching and Career Development Platform

Sep 2017 – Oct 2022

Operations, CRM & Business Analytics

- Led analytics support across operations, marketing campaigns, billing, job matching, CRM activity, customer/candidate tracking, and business performance monitoring.

Executive Reporting & Automation

- Prepared monthly, quarterly, and annual management reports for the Managing Director and Country Head using KPI tracking, Looker Studio dashboards, and Google Workspace reporting workflows.

Google Form & Sheet-based Process Improvement

- Used Google Forms, Google Sheets, and Apps Script-supported workflows to streamline data collection, follow-up tracking, operational monitoring, and reporting formats.

Team Leadership & Business Problem Solving

- Managed a **7-member team**, improved operational efficiency by **29%–35%**, and enhanced CRM/lead management efficiency by **31%–49%** through workflow tracking and reporting discipline.
- Solved mid-level operational issues related to lead follow-up, churn, service gaps, data mismatch, CRM discipline, and reporting accuracy.

BI PROJECT

Project Name: Consumer Brands/ FMCG Business Intelligence Web Live Dashboard (Demo_Data_Set)

Project URL: https://tinyurl.com/kamrul-consumer-bi
Demo Login: kamrul / Password: 1234

Project Summary:
Developed a Business Intelligence web dashboard for consumer brands to analyze sales performance, P&L, data modeling, product/category performance, and management-level KPI visibility. The dashboard helps users review business trends and primary & secondary sales, identify performance gaps, and make faster, data-driven decisions through clear visual reporting.

CORE COMPETENCIES

- **Business, Sales & Commercial Intelligence:** Sales performance analysis, primary/secondary sales tracking, target vs achievement, region/area/channel/SKU-wise business review.
- **MIS, KPI & Management Reporting:** MIS reporting, KPI monitoring, executive reporting, business review reports, incentive calculation, and decision-support summaries.
- **BI Dashboard & Reporting Automation:** Power BI, Looker Studio, Advanced Excel, Power Query, Google Workspace, and Apps Script-based dashboard/reporting automation.
- **Planning, Pricing & Business Analysis:** Demand planning support, pricing analysis, trade offer evaluation, performance gap analysis, and root-cause-based business recommendations.
- **CRM, Sales Operations & Data Quality:** CRM reporting, lead tracking, sales operations support, data cleaning, reporting accuracy improvement, and workflow monitoring.
- **Cross-functional Decision Support:** Collaboration with Sales, Finance, Operations, Supply Chain, Planning, Audit, and Management teams for accurate and decision-ready business insights.

KEY BUSINESS CONTRIBUTIONS

- Improved reporting efficiency by **35%–55%** through automated dashboards, structured MIS formats, and faster data consolidation workflows.
- Reduced manual data collection time by **30%–45%** using Google Forms, Google Sheets, and Apps Script-based reporting automation.
- Strengthened CRM, lead tracking, and operational visibility, improving lead management efficiency by **31%–49%** and operational efficiency by **29%–35%**.
- Supported senior management with decision-ready sales performance, incentives, foreign trips, quarterly/yearly business review, and operational performance reports.
- Managed a **7-member team** and improved follow-up discipline, workflow monitoring, reporting accuracy, and team-level performance visibility.

TECHNICAL SKILLS

- **BI & Dashboarding:** Power BI, Looker Studio, Metabase.
- **MIS & Reporting Automation:** Advanced Excel, Power Query, Pivot Tables, KPI Reporting, Management Reporting.
- **Google Workspace Automation:** Google Sheets, Google Forms, Google Slides, Apps Script, Live Reporting Workflows.
- **Database & Business Systems:** Basic SQL, HubSpot CRM, Oracle, SDMS, ERP Systems
- **Digital & Product Data Tools:** Firebase, Stripe.

EDUCATION

- **Bachelor of Business Administration in Accounting**
  Stamford University Bangladesh | 2016 | CGPA: 3.18 / 4.00
- **Higher Secondary Certificate — Commerce**
  St. Joseph Higher Secondary School | 2009 | GPA: 3.60 / 5.00
- **Secondary School Certificate — Commerce**
  Mohammadpur Government High School | 2007 | GPA: 4.31 / 5.00
